Synopsis

CONTRACT RESEARCH AND MANUFACTURING SERVICES in INDIA

The global pharmaceutical industry is at the cross roads. With many of the blockbuster drugs getting off-patented and with increasing R&D costs, it's hard by the companies to maintain their bottom-line and remain unaffected. They have found recourse to outsourcing some of their research and manufacturing activities and saving cost in the process. This has led to the growth of contract research and manufacturing services or **CRAMS** making the companies in India to rejoice.

Business of **CRAMS** has come as a boon to the mid-cap pharma companies in India, these companies are merrily embracing **CRAMS** taking full advantage of the features enjoyed by India as a country of diverse origin and strong manufacturing base in pharma for years. India could potentially capture 10% of the global CRAMS market of almost US\$ 168 billion by 2009. Overall, the CRAMS segment is expected to have grown at 40-50 percent in the last few years.

Cygnus Business Consulting & Research has introduced new report on **CONTRACT RESEARCH AND MANUFACTURING SERVICES IN INDIA** – A comprehensive report with the objective of equipping you with the cutting edge analysis across countries and product segments and keeping you abreast of the latest developments.

This report on the scenario of contract research and manufacturing in India comes at a time when business is pregnant with greater possibilities, new players are coming up on a regular basis and overseas companies are taking great interest in outsourcing their clinical trials or manufacturing of APIs in India. This report is going to be enlightening and resourceful to all those involved with **CRAMS** in India, be it the present players, the players in the offing, the policy makers or the academicians. Global pharma and biotech companies are taking increasing interest in India to outsource their activities in bio-pharma, clinical trials, health care (Telemedicine) and contract manufacturing. Companies in India involved in **CRAMS are involved in clinical trials, research and development and manufacturing.**

CONTENTS

EXECUTIVE SUMMARY	7
1. INTRODUCTION	10
1.1 Contract Research (CR)	10
1.2 Contract Manufacturing (CM)	11
1.3 Industry specific Applications	12
1.4 Advantages.....	13
1.5 Disadvantages	14
2. MARKET OVERVIEW.....	15
2.1 Characteristics of the CRAMS companies of India.....	16
2.2 Areas of Government support critical to the company	16
2.3 R&D strategies of companies in CRAMS	17
2.4 Research on local disease conditions.....	17
2.5 Emerging Business Strategies	18
2.6 FDA approved manufacturing plants in India	19
2.7 TRIPS compliance and impact on companies	19
2.8 Emerging business model.....	20
2.9 Service providers in contract manufacturing	21
2.10 Current market	21
2.11 Historical development	24
2.12 Market players.....	25
2.13 Planning outsourcing process.....	26
2.14 China-The biggest threat	26
3. INDUSTRIAL APPLICATIONS	28
5.2 Pharmaceuticals	28
5.2 Biotechnology	28
5.2 Data Management.....	29
4. CRAMS OUTSOURCING	30
4.1 Introduction	30
4.2 Market Status.....	30
4.3 Outsourcing in Clinical Research	31
4.4 Reasons for outsourcing to CROs.....	31
4.5 Some important outsourcing activities.....	32
5. GROWTH DRIVERS.....	33

5.1 Incomplete value chain	33
5.2 Demands for NCEs and INDs	35
5.3 Need for Speedy and low cost R&D	36
5.4 Patenting requirements	36
5.5 Manpower development	37
6. ISSUES AND CHALLENGES -----	38
6.1 Non-Availability of Skilled Manpower.....	38
6.2 Growing global competition	40
6.3 MNCs opening internal R&D (Insourcing)	41
6.4 Manufacturing units	41
6.5 Issues in Indian System of Medicine	42
6.6 Others	42
7. MAJOR PLAYERS-----	43
7.1 Introduction	43
7.2 Indian companies.....	43
7.3 Multinational Companies	43
7.4 Major players foraying areas	43
7.5 Major players in CRAMS.....	44
8. REGULATORY ISSUES-----	55
8.1 Government Regulations	55
8.2 Patent Regime	56
8.3 Customs Duty	57
8.4 GATT/TRIPS/WTO.....	58
8.5 Unsafe Drugs.....	58
8.6 Industry's Growing Influence over Research	59
8.7 Academia and Industry – Eroding boundaries	59
8.8 Regulatory System in India: Government policies.....	60
8.9 Regulation of Ethical Issues	63
8.10 Indian Government's Stand.....	65
8.11 Research and Development Regulations	65
8.12 Government policies.....	66
9. CRITICAL SUCCESS FACTORS-----	68
9.1 Manufacturing/Production	68
9.2. Research	70
10. FUTURE OUTLOOK-----	73
10.1 High expectations, lot of promises.....	73
10.2 Manufacturing and Licensing Opportunities	73

10.3 Mergers and Acquisitions	73
10.4 Licensed Production	74
10.5 Marketing Tie-ups.....	74
10.6 Budding Research base	74
10.7 Increasing R&D investment of global pharma companies	74
10.8 Conclusion.....	75
ANNEXURE : 1 -----	76
ANNEXURE : 2 -----	79
