## Preface

*The “Directory of Software MNCs in India” provides basic information about all the leading multinational software companies in India. Other than the Executive Summary, the directory is broadly classified into two sections. The first section contains a detailed profiling of 113 multinational companies in software development having multiple or at least one development centre in India. All these are currently the top companies on a global scale. The profiling is done on the basis of available information like the company description, contact person, number of employees in India, Outsourcing activities of the development centre, mainline business of the company apart from address and other useful information.*

*The other section contains brief profiling of all other multinational companies in software development having existence in India. All these companies are briefly profiled in terms of Company description, Contact person apart from address and few other relevant information wherever available.*

*With all the IT companies focusing towards new cutting edge products and solutions, enhanced services and leveraging the geographic advantage, IT companies have started to operate their Indian development centre as a center of excellence or as an export engine. This directory is expected to increase the knowledge about the activities of the Software MNCs in India regarding opening up development centres. It will help in understanding customers and developing strategies locally which will be the most critical success factors for the smooth functioning of a development centre in India. As a result, this directory will help many other software multinationals with India in their next expansion plan, several local companies eyeing towards partnerships with multinationals in software development in India and entrepreneurs and professionals interested in knowing the outsourcing activities of global software giants in India.*
